

MacDougall Collection

The Highlands & Islands Tour

The MacDougall Collection is a social history museum collection gathered by the late Hope MacDougall of MacDougall, Oban.

Although firmly rooted in Oban, being the daughter of the Chief of the Clan MacDougall, Hope MacDougall spread her collecting interests widely. In pursuit of her keen interest in the working and domestic lives of ordinary people, she undertook collecting tours throughout the Highlands and Islands. Her collection is academic and highly eclectic, and paints a remarkable portrait of the Highlands across the social spectrum
